- Feed consumption
- Water consumption
- Egg Production
- Bird Weights
- Feed Inventories/Deliveries
- Environmental Statistics
- Egg sizing
- Costs

And more!

IMPROVED WORKFLOW

Noah X has several innovative features to enhance your farm management experience.

Advanced Views

House layout displays show a heat map depiction of temperature distribution at a glance. Dynamic graph views allow you to see your data quicker and easier than ever before.

Time Travel

Historical data playback lets you relive history. Whether it's last week, last month, or last year, Noah X lets you travel back in time to get a better understanding of your farm.

Cloud support

Noah X integrates with our Reach mobile app, allowing access to your farm's data whenever and wherever you need it.

UNPARALLELED SUPPORT

When you purchase Noah X, you purchase more than a product. Noah X comes with dedicated support from the technical experts here at Prism Controls. Have a problem, question, or suggestion? Talk to our qualified support team for a customized solution. Contact us today to see what Noah X and Prism Controls can do for your farm.
